### Who we are and what we do:

- Geographe Community Landcare Nursery Inc. is a community managed, specialist nursery growing local flora from the lower Southwest region of Western Australia - a Biodiversity Hotspot.
- We advise on how and what to grow for local conditions and diverse purposes.
- We provide a safe and friendly workplace for a wide range of volunteers.
- We are a self-funded, 'not for profit' organisation.

### Other services

- We can cater for 'one off' groups of people (school groups, special interest groups, training groups etc.).
- We are keen to mentor anyone interested in learning plant ID and seed collecting skills, or becoming one of our licensed seed collectors.
- We hold seminars at the nursery
- 'Off site' speaking/seminars
- Site visits and consultancy services

### Plant Species we grow

- We offer a comprehensive range of species.
- Our wholesale list (this list) and order form has over 200 local native species.
- Our 'supplementary' list has over a hundred additional species, grown in smaller quantities. (also available on our website.)
- Please feel free to enquire if you can't find what you are looking for on one of our lists, we may already grow it, or we can sometimes grow it for you.
- We are constantly experimenting with new species and techniques.

**Please read all of Our Terms and  
Conditions on the Next Page**
